

# Including ALL Kids

More and more children with special needs are enrolling in childcare programs and oftentimes, with this enrollment comes some concern from providers about how to best serve all the children in the class. This workshop will discuss why inclusion is important for children, families, staff, and communities as well as how to modify your instruction and -or environment to include all children as part of the curriculum.

Please contact the Mid- State ECDC to schedule a workshop for your program or group.
