

Challenging Behavior Series: Helping Teachers Work Better with Young Children (0-5) with Challenging Behavior

*This series includes 8 modules that are designed to help early childhood professionals to better understand, define, prevent and respond to challenging behaviors. All eight modules can be addressed or a program can choose the specific modules that suit individual classroom needs. These modules are based on the DVD's created by the Devereux Early Childhood Initiative; *Facing the Challenge and Classroom Moments*.*

This can also be designed as mentorship both in and out of the classroom for staff. Mentorship would include observations, training, implementation, and follow up based on this increasingly difficult topic.

- 1. What Is Challenging Behavior?*
- 2. Developmentally Appropriate Behavior*
- 3. Why Do Kids Misbehave?*
- 4. Parents As Partners*
- 5. Prevention Strategies*
- 6. Behavioral Planning Part 1*
- 7. Behavioral Planning Part 2*
- 8. Intervention Strategies*
